PROFESSIONAL SUMMARY

A proactive B.Tech Computer Science undergraduate from DIT University with a strong foundation in Artificial Intelligence and software development. Eager to contribute to innovative work environments that promote both personal and professional growth. Currently seeking opportunities in AI and web development to apply skills, gain real-world experience, and expand expertise in CRM solutions. Driven by curiosity and determination, with continuous learning as a core strength. Interests include sports and fitness.

EDUCATION

Bachelor of Technology - Computer Science and Engineering

DIT University (2023 – 2027)

- Current Year: 3rd
- Core Focus: Software Engineering, Effective Communications.
- President, Career Development Centre (CDC)

SENIOR SECONDARY - CBSE

Social Baluni Public School, Dehradun | Year: 2023

HIGH SCHOOL - CBSE

ST. Mary's Convent Sec. School, Dehradun | Year: 2021

SKILLS

Programming Languages: Python, Java, R, SQL,

Concepts: Problem Solving and Analytical Skills

CERTIFICATIONS

AI Foundations Associate - Oracle University

- AI Fundamentals: Learned core concepts of Artificial Intelligence, Machine Learning, Deep Learning, and Generative AI.
- Responsible & Ethical AI: Gained understanding of ethical AI practices, bias reduction, and responsible AI implementation.
- OCI AI Services: Explored Oracle Cloud Infrastructure AI tools and cloud-based AI technologies.
- Problem-Solving & Analytics: Strengthened analytical thinking and understanding of AI-driven business solutions.

Introduction to Artificial Intelligence - LinkedIn Learning

- AI Basics: Developed foundational knowledge of Artificial Intelligence and modern AI technologies.
- Machine Learning Concepts: Learned basic concepts of machine learning, neural networks, and automation.
- Real-World Applications: Explored practical applications of AI in healthcare, business, automation, and data analysis.
- Emerging Technologies: Improved understanding of AI trends, intelligent systems, and future AI innovations.

PROJECT

JARVIS –AI Virtual Voice Assistant

Key Skills: Programming: Python APIs: Cohere API, Groq API, Hugging Face API Concepts: NLP, Generative AI, LLM Integration Voice: Speech-to-Text (STT), Text-to-Speech (TTS)

Currently WORKING ON THIS , Jarvis is an AI virtual voice assistant built using Python , designed to provide fast and natural voice-based interactions. It integrates APIs for advanced NLP, enabling it to understand user queries, generate intelligent responses, and perform tasks through voice commands. Jarvis focuses on smooth conversation flow, accurate speech recognition, and clear voice output, providing a seamless and interactive user experience.

Object Recognition Using Camera Feed

Skills: Programming: Python 3.7 Framework: TensorFlow, YOLO Concepts: Object Detection, Computer Vision, Real-time Processing Tools: Anaconda, Conda (for environment management).

It is a real-time computer vision project developed using Python 3.7 and TensorFlow, leveraging the YOLO (You Only Look Once) algorithm for fast and accurate object detection. It processes live video input from a camera, detects objects in each frame, and classifies them using pre-trained YOLO models. The system displays bounding boxes and labels on the video feed, enabling real-time object recognition. YOLO ensures high-speed detection with strong accuracy, making this run perfectly.

INTERNSHIPS

Campus Ambassador | Penthara Technologies,

During my internship, I gained experience in promoting programs and events on campus. I helped spread awareness through social media, posters, and direct interaction with students. I also acted as a link between students and the organization, improving my communication, teamwork, and leadership skills while encouraging more students to participate.

Generative AI Engineer | SystemTron,

As a Generative AI Engineer, I gained hands-on experience in building and working with AI models for tasks like text generation and data analysis. I worked on developing and testing AI solutions using machine learning and deep learning techniques. I also improved my skills in Python, working with datasets, and integrating AI models into applications. This role helped me strengthen my problem-solving, coding, and understanding of AI systems.

EXTRA CURRICULAR ACHIEVEMENTS

Cadet of NCC - 29 UK Battalion

NATIONAL CADET CORPS, DIT University

International level Basketball Player

Sorts Development Comity of India(SDCI) Runner-up

National level Basketball, Rural Games Federation of India (RGFI)

Secured 1st Place Twice at the National Level

Sports captain in School

PERSONAL DETAILS

Gender: MALE

Marital Status: Single

Current Address: Clement Town, Dehradun

Email: himanshujd.0011@gmail.com

Date of Birth: 11-02-2006

Known Languages: Hindi, English.

Phone Numbers: +91 7078760778
